Sparksoft

WHAT IS IN SCOPE

Sparksoft Corporation, an industry leader of innovative Digital Health solutions, has been awarded a 10-year prime contract on the Solutions for Enterprise-Wide Procurement (SEWP) VI Governmentwide Acquisition Contract (GWAC) Category B by National Aeronautics and Space Administration (NASA). The SEWP vehicle is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support - more than 50,000 orders a year

Sparksoft will deliver Enterprise-wide Strategic Solutions that improve and enhance the federal agencies ITC/AV infrastructure through methodologies such as cloud services; managed services; and shared services. The following are general categories and examples of the type of work to be performed relative to task order requirements:

- Enterprise-wide Network Services
- IT Managed Services
- Enterprise-wide Innovation Services
- IT Service Management
- Enterprise Service Program Integration
- Enterprise-wide Information and Data Analytics Services
- Enterprise-wide Application Service/ Software Development
- Enterprise-wide Cybersecurity Services
- Enterprise-wide Cloud Services
- Enterprise-wide Digital Multimedia and Technical Communications Services
- Program Management/ Ancillary Services and Supplies

FAIR OPPORTUNITY

FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding $10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract Holders within a selected Group or based on a suggested source.

ORDERING PROCESS

The internal ordering process of each Agency varies. The process and accompanying forms for Purchase Requests (PR) and Delivery Orders (DO) that are issued against a SEWP contract is defined by the issuing agency, not the NASA SEWP Program Management Office (PMO). The typical process is for an end-user to determine a requirement and generate a Purchase Request (PR).

The PR along with any necessary funding information is sent to that Agency's procurement office which results in the issuance of a DO. Any valid Federal Agency DO form, and the associated Delivery Order number may be used. The NASA SEWP Program Management Office (PMO) does not issue DOs-these must be issued through the issuing Agency's procurement office. The SEWP Program Management Office (PMO) reviews, processes and tracks issued DOs and forwards them to the Contract Holder(s).

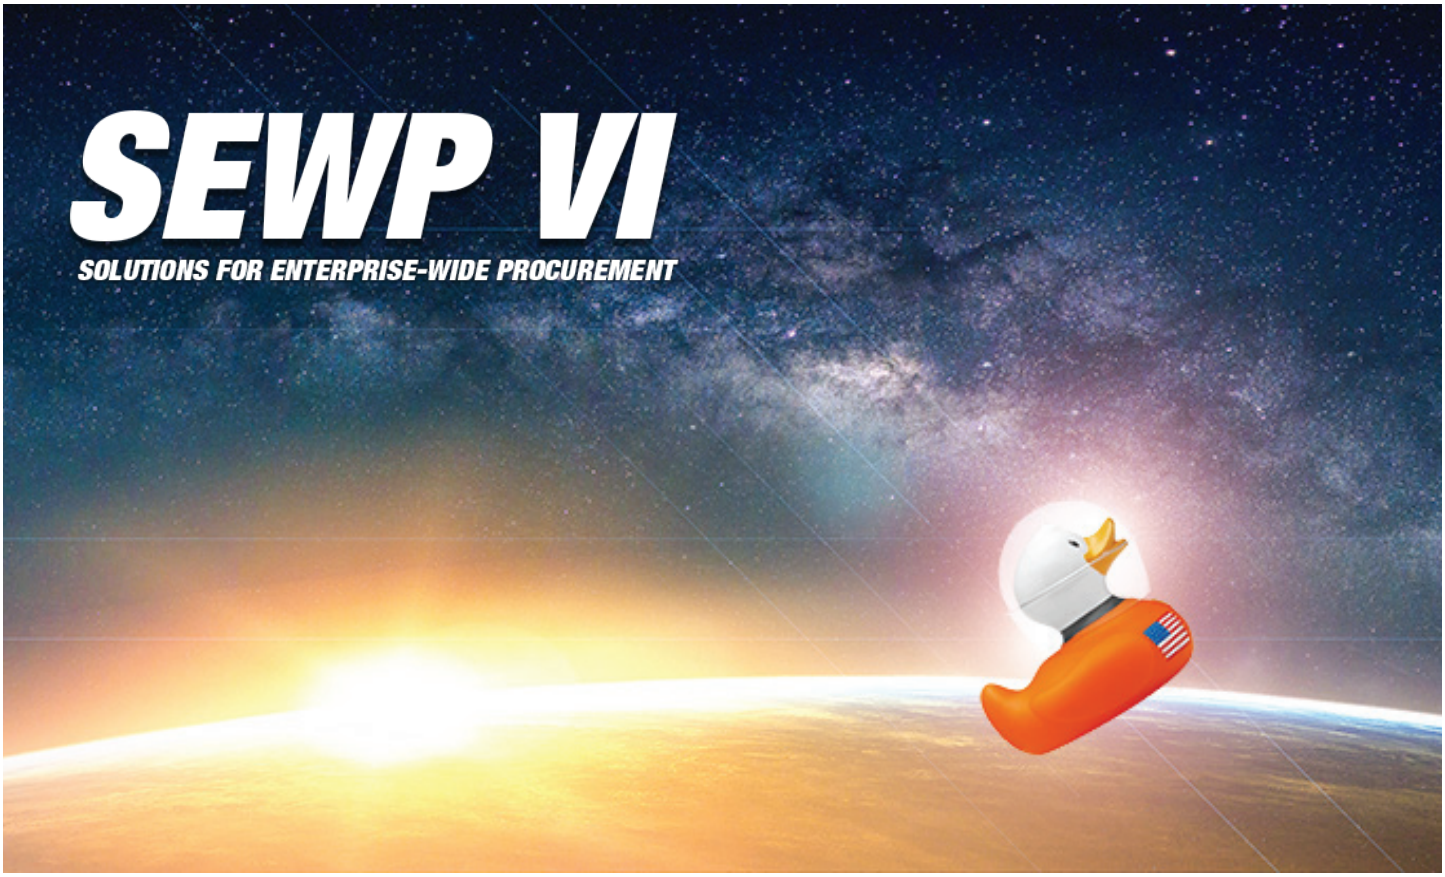
Some Agencies have special requirements for issuing IT Delivery Orders. It is the Issuing Agency's Contracting Officers' (COs/KOs) responsibility to be aware of any Agency-specific policies regarding issuing orders via an existing contract vehicle and Government-Wide Acquisition Contracts. There are no requirements under the SEWP Contracts for issuing Agencies to use other intermediary procurement offices, except as directed through their own internal policies. If modifications are made to any order, these modifications must also route through the SEWP PMO.

ABOUT SPARKSOFT

Sparksoft is a Capability Maturity Model Integration (CMMI) Services and Development Maturity Level 3, ISO 9001:2015, ISO 20000-1:2018, ISO 27001:2018, and ISO 18295-1:2017 certified consulting organization with a proven record of successfully delivering modern digital health solutions for more than a dozen Federal, State, and Commercial customers. As evidenced by our 20+ prime contracts and subcontracts, and further supported by our excellent Contractor Performance Assessment Reports (CPARs), Sparksoft is a highly mature and capable partner trusted by the government and industry. We bring to bear the essential institutional knowledge, contract vehicles, certifications, experienced personnel, and process maturity to deliver the requirements in compliance with Federal regulations, industry best practices, and agency governance needs.


Through our focused mission "to ignite innovation, inspire transformation, and implement digital solutions for a healthier nation" we specialize in DevSecOps Delivery, Data Science, Contact Center Operations, and Intelligent Automation. Since 2004, our exceptionally skilled people, proven leadership, and optimized processes all work together to relentlessly push for more efficient solutions for our HHS, Military Health, and Life Sciences clients. We have developed a support structure of Innovation Centers designed to collect our enterprise-wide lessons learned and identify project-specific opportunities for improvement. SparkLabs, where our Research & Development engineers explore ideas and turn them into real-world solutions is an important impetus in our drive for innovation. We continually pull from our experience and combine this with forward-thinking technology from our certified partners like Red Hat, Microsoft, AWS, Google, Databricks, ServiceNow, Pega, and Salesforce to conceptualize novel and effective solutions such as our SparkLoader® RPA data pipeline, SparkGrid® Snowflake GUI, MockSpider® virtual sandbox, ScriptHive® for TDD/BDD automation, SparkMarker® website acceptance testing, and 508bee® for accessibility validation.
